

Tournament conditions

SETKA CUP during a pandemic

The Covid-19 pandemic has affected all areas of activity around the world. Ukraine, and with it its sports sphere, is no exception.

Covid-19 not only makes it necessary to adjust the training conditions for athletes, but also sports tournaments, including table tennis. It provoked a global recession and also forced all countries of the world to revise their state budgets.

At this difficult time for our country and sport, we were also forced to make changes to the process and conditions of the Setka Cup tournaments. But at the same time, we make every effort to ensure that sports in Ukraine not only do not stop but also continue to develop despite all the difficulties and restrictions caused by Covid-19.

The organizer of the Setka Cup series tournaments takes the following measures to ensure the health safety of athletes participating in tournaments, namely:

- 1) all players will be required to undergo a temperature check before the start of the tournament;
- 2) players keep a physical distance of at least 1.5 meters from each other during the tournament;
- 3) there is no more than 1 person for every 5 square meters of the total area of premises where the tournaments are held;
- 4) the tournament premises should be equipped with personal protective equipment and disinfection equipment (masks, gloves, hand disinfectants);
- 5) tournaments are held without the presence of spectators (online broadcasts of tournaments are available for free viewing on our website);
- 6) tournament premises are regularly cleaned with disinfectants and ventilated throughout the day

The Tournament Organizer Setka Cup puts the comfort and safety of athletes in the first place. We firmly believe that these values will help us overcome the coronavirus crisis.
